

Mobile Armor 508 Statement of Compliance

Version 2.0

Mobile Armor products meet the "Section 508" technical standards of 1194.21, to the extent stated in the accompanying Voluntary Product Accessibility Template ("VPAT"). We therefore certify compliance with the following solicitation requirement, or similar solicitation requirements:

"All electronic and information technology (EIT) procured through this Statement of Work/Bill of Materials and any resulting contract, task order, delivery order, or purchase order must meet the applicable accessibility standards at 36 CFR 1194, unless an agency exception to this requirement exists. 36 CFR 1194 implements Section 508 of the Rehabilitation Act of 1973, as amended, and is viewable here. The contractor shall indicate for each line item in the schedule whether each product or service is compliant or noncompliant with the accessibility standards at 36 CFR 1194. Further, the proposal must indicate where full details of compliance can be found (e.g., vendor's website or other exact location)."

Voluntary Product Accessibility Template

The purpose of the Voluntary Product Accessibility Template, or VPAT, is to assist Federal contracting officials and other buyers in making preliminary assessments regarding the availability of commercial Electronic and Information Technology products and services with features that support accessibility. It is assumed and recommended that vendors will provide additional contact information to facilitate more detailed inquiries.

Date: July 30, 2009
